Review of Article X
Sections 16 Through 24
Constitution of Missouri

Year Ended June 30, 2004

Report No. 2005-47 auditor.mo.gov

The following is a review conducted by our office of Article X, Sections 16 through 24, Constitution of Missouri.

On November 4, 1980, the voters of Missouri passed Constitutional Amendment No. 5, which added Article X, Sections 16 through 24 to the Constitution of Missouri. The amendment, commonly referred to as the Hancock Amendment, requires that no greater portion of Missourians' personal income be used in any future year to fund state government than was the case in fiscal year 1981, except as authorized by a vote of the people.

The State Auditor's Office performs a review of the state's compliance with the provisions of the Hancock Amendment to verify the accuracy of the revenue limit computation performed by the Office of Administration, Division of Budget and Planning (OA-BP). The auditor's review agreed with the OA-BP that no refund is due to taxpayers for the year ended June 30, 2004.

Total state revenue was calculated at \$7.7 billion, while the refund threshold was calculated at \$9.2 billion, which means state revenue was under the revenue limit by \$1.5 billion for the year ended June 30, 2004.

STATE AUDITOR'S REPORT

Honorable Matt Blunt, Governor and Members of the General Assembly and Michael Keathley Commissioner Office of Administration Jefferson City, MO 65102

We have conducted a review of revenues of the state of Missouri for the year ended June 30, 2004, and the application to those revenues of Article X, Sections 16 through 24, of the Constitution of Missouri, more commonly referred to as the Hancock Amendment (included as an Appendix). We had previously reported on revenues of the state for the years ended June 30, 1982 through 2003. The amendment, which was adopted by the voters of Missouri on November 4, 1980, limits the growth of state revenues collected in any fiscal year. The objectives of this review were to:

- 1. Evaluate the formula to calculate the state's revenue limit.
- 2. Determine the specific items included in total state revenues.
- 3. Verify the accuracy of the revenue limit computation and compare that limit to total state revenues.
- 4. Review the state's overall compliance with the provisions of the amendment.

Our review included only the application of the revenue limit to state revenues and, accordingly, did not include a review of the effects of the amendment on any local governmental unit.

Our methodology to accomplish these objectives included discussions with personnel of the Office of Administration, Division of Budget and Planning, inspecting relevant records and reports compiled by that office, and reviewing reports from the statewide accounting system. We reviewed this information to the extent necessary to satisfy ourselves that the following Exhibits are fairly stated in all material respects.

The following Executive Summary and the Background, Methodology, and Conclusions present our comments, findings, and conclusions concerning the state's overall compliance with the provisions of Article X, Sections 16 through 24, Constitution of Missouri.

Claire McCaskill State Auditor

Die McCadiell

EXECUTIVE SUMMARY

# REVIEW OF ARTICLE X, SECTIONS 16 THROUGH 24, CONSTITUTION OF MISSOURI EXECUTIVE SUMMARY

On November 4, 1980, the voters of Missouri passed Constitutional Amendment No. 5 which added Article X, Sections 16 through 24 to the Constitution of Missouri. The amendment, commonly referred to as the Hancock Amendment, requires that no greater portion of Missourians' personal income (MPI) be used in any future year to fund state government than was the case in fiscal year 1981, except as authorized by a vote of the people.

Exhibit A presents a summary of the calculations of limited total state revenue (TSR) for the years ended June 30, 2004, 2003, 2002, 2001, and 2000. The results of our review determined that for the year ended June 30, 2004, TSR was approximately \$1.5 billion under the refund threshold. As a result, no refund is due for the year ended June 30, 2004.

On January 27, 1998, the Missouri Supreme Court entered a final decision in <u>Kelly v. Hanson</u>, <u>et. al.</u>, 959 S.W. 2d 107 (Mo. 1998). This decision determined that taxes and other funds collected by the state may not be considered revenue in the context of TSR unless they meet a two-part test derived from an earlier judicial definition of revenue: (1) the funds must be received into the state treasury; and (2) the funds must be subject to appropriation. Thus, the Hancock Amendment presents unique financial related legal requirements that must be taken into consideration. The items that the Supreme Court specifically ruled on are as follows:

- 1. The Federal Reimbursement Allowance and the Nursing Facility Reimbursement Allowance tax imposed by the state to pay the state's share of the costs of the Medicaid program is collected by an offset against Medicaid claims and is not directly deposited in the state treasury. As a result, this revenue is not included in TSR.
- 2. The local use tax imposed by the state under Section 144.748, RSMo, until repealed on May 21, 1996, and distributed to local government is not deposited in the state treasury and is not appropriated. As a result, this revenue is not included in TSR.
- 3. Revenue from one dollar of a state imposed two dollar admission fee to gaming riverboats is remitted to the "home dock city or county" and is not deposited in the state treasury. As a result, this revenue is not included in TSR.
- 4. Ten percent of the revenue for an adjusted gross receipts tax imposed by the state on gaming riverboats is remitted to the "home dock city or county" and is not deposited in the state treasury. As a result, this revenue is not included in TSR.
- 5. An adjustment to the revenue limit related to the state assuming certain judicial clerk salaries is appropriate.

On November 24, 1998, the Missouri Court of Appeals, Western District entered a final decision in <u>Kelly v. Hanson, et. al.</u>, 984 S.W. 2d 540 (Mo. 1998). The Missouri Court of Appeals, Western District ruled that revenue from the one dollar of the state imposed two dollar admission fee to gaming riverboats is not included in TSR while the revenue from the payments to the state to recoup public safety and regulatory enforcement costs for gaming riverboats is included in TSR.

The State Auditor's Office (SAO) and the Office of Administration, Division of Budget and Planning (OA-BP) did not present an issue to the Supreme Court concerning the proper accounting for the effect of tax refunds. However, because the Supreme Court decision indicated that the Hancock provisions in the constitution require the actual receipt of revenue, the amendment presents a cash basis system of accounting. Based on the Court's decision, the SAO has changed the calculation of refunds from an appropriations basis to a cash basis.

On June 29, 1999, the Missouri Supreme Court entered a final decision in <u>Conservation Federation of Missouri</u>, et. al., v. Richard Hanson, et. al., 994 S.W. 2d 27 (Mo. Banc. 1999). This decision determined that Article IV, Section 43(b) prohibits the disbursement of monies specified in that section for the purpose of making the refund required by Article X, Section 18, and that revenue derived from the one-eight of one percent sales tax imposed by Article IV, Section 43(a) is not includable in TSR.

This decision related to the use of Conservation Fund monies for making refunds under the Hancock Amendment. The General Assembly appropriated a total of approximately \$6 million from the Conservation Fund to be used to pay for refunds due to taxpayers under the Hancock Amendment for fiscal years 1995 and 1996. The Conservation Federation filed suit declaring that moneys in the Conservation Fund may not be used to make these refunds and that the sales tax proceeds are not includable in TSR. The Supreme Court ruled that Article IV, Section 43(b) requires that conservation funds be expended for conservation purposes as specified in that section and using these funds to pay for Hancock refunds is, therefore, unconstitutional.

This decision also related to whether the conservation sales tax should be included in TSR. The Supreme Court noted that the conservation sales tax imposed by Section 42(a) was enacted by a vote of the people in 1976, which was four years before the Hancock Amendment was approved. However, Section 43(b) was adopted contemporaneously with the Hancock Amendment and, therefore, went into effect after the Hancock Amendment's baseline period for TSR, which was fiscal year 1981. Thus, this case presents the unique situation that a tax was approved by the voters prior to the Hancock Amendment, but the voter-approved (indeed voter mandated) spending of that revenue was approved after the Hancock Amendment's initial tax and spending ceiling was calculated.

Since the state had already paid refunds to taxpayers for fiscal years 1995, 1996, and 1997, the state has decided not to recalculate TSR for those years. However, for fiscal year 1998, the state has excluded the conservation sales tax (and related interest earnings) from TSR in accordance with the Supreme Court decision. In addition, the state will not pay any refunds (for prior years or future years) from the Conservation Fund.

In December 1999, two lawsuits were filed in the Cole County Circuit Court. The first case, Flotron v. Carnahan, et. al., 99CV323351, claims that the Supreme Court held in Conservation Federation v. Hanson, 994 S.W. 2d 27 (Mo. Banc. 1999) that all revenue from the conservation

sales tax must be removed not only from yearly total state revenues, but also from the baseline calculation for 1981. The second case, Missouri Merchants and Manufacturers Association, et. al. v. State of Missouri et. al., 99CV323530 claims that the state has not included tax credits in the calculation of the revenue limit and TSR. These two lawsuits were consolidated, and on March 8, 2001, the Missouri Supreme Court handed down its decision in Missouri Merchants and Manufacturers Assoc. v. State of Missouri, 2001 WL 224725 (Mo.). The court held that the auditor and the OA-BP correctly decided to keep conservation sales tax revenues in the baseline calculation, while excluding them from yearly total state revenues. The court further found that tax credits which exceed a taxpayer's liability, resulting in a refund to the individual taxpayer, should be included in the calculation of total state revenue. Starting in fiscal year 2001, the OA-BP has included certain tax credits in the calculation of total state revenue.

NOTES TO THE EXHIBITS

# REVIEW OF ARTICLE X, SECTION 16 THROUGH 24 CONSTITUTION OF MISSOURI NOTES TO THE EXHIBITS

- 1. The state implemented a new accounting system (SAM II) beginning with fiscal year 2000. The coding structure (chart of accounts) was significantly changed under SAM II. As a result, revenue and expenditure refunds by type for fiscal years prior to SAM II are not comparable with SAM II information. As a result, revenues and expenditure refunds by type are not presented for years prior to fiscal year 2000.
- 2. Expenditure refunds are excluded from total state revenue on the cash basis of accounting, which means all refunds paid from July 1 through June 30. Expenditure refunds for fiscal year 2000 include those paid from the state's new accounting system (SAM II) starting on July 1, 1999 and ending June 30, 2000, and refunds paid from the old accounting system (SAM) during the lapse period of fiscal year 1999 (July 1, 1999 through August 31, 1999).

BACKGROUND, METHODOLOGY, AND CONCLUSIONS

# REVIEW OF ARTICLE X, SECTIONS 16 THROUGH 24, CONSTITUTION OF MISSOURI BACKGROUND, METHODOLOGY, AND CONCLUSIONS

The following identifies the various components of the amendment and the application of the amendment to state revenues.

# **Formula**

Article X, Section 18(a) of the Constitution of Missouri establishes the revenue limit formula as follows:

Revenue limit =  $\frac{TSR \text{ in FY } 1981}{CY 1979 \text{ Missouri personal income (MPI)}} x$ 

The greater of Missouri Personal Income (MPI) in the calendar year (CY) prior to the CY in which appropriations are made for FY 20XX or Average MPI for three CYs preceding FY 20XX

The formula is composed of two principal parts. The first part of the formula, the base year ratio (BYR), is as follows:

TSR in FY 1981 CY 1979 MPI

The application of this ratio to the second part of the formula (future years' MPI) ensures that no greater portion of a future year's personal income will be used to fund state government than was the case at the time of passage of the amendment. The MPI amounts used in the formula for the base year and subsequent years are reported by the U.S. Department of Commerce (DOC).

The OA-BP does not adjust the BYR for changes already made or for future changes or adjustments to this amount by DOC. Article X, Section 17(2) refers to "... total income ... as defined and officially reported by" DOC. Even though the amendment does not specifically refer to such adjustments, this wording suggests that the BYR should be adjusted whenever CY 1979 MPI is adjusted by DOC. The use of the initial reporting of MPI does provide an unchanging BYR for future years, which provides at least two benefits. First, the state can more easily plan and make appropriate adjustments to stay under the revenue limit. Second, if the initial MPI is subsequently adjusted, retroactive refunds are a possibility. That is, an adjustment to MPI for any prior year (including the base year) could reduce the revenue limit for a prior year below that year's TSR, providing a refund where one previously was not due. Therefore, we find this approach reasonable so long as it is followed consistently.

As with the BYR, the OA-BP uses the MPI first officially published by DOC after the close of the CY to calculate the revenue limit for the applicable fiscal year. For the reasons expressed in the preceding paragraph, we find this approach reasonable so long as it also is followed consistently.

The BYR was calculated by the OA-BP as follows (dollar amounts are in billions):

In its calculations of the revenue limit the OA-BP rounded the BYR to .056395.

Article X, Section 18(b) allows the state to exceed the revenue limit by 1 percent before a refund is due. Therefore, to determine the point at which the refund provision takes effect (the refund threshold) the revenue limit is adjusted upward by 1 percent. However, should TSR exceed the refund threshold, all revenues in excess of the revenue limit are subject to refund.

# **Adjustments**

Article X, Section 18(d) provides that the revenue limit may be adjusted,"... if responsibility for funding a program or programs is transferred from one level of government to another, as a consequence of constitutional amendment ... provided that the total revenue authorized for collection by both state and local governments does not exceed that amount which would have been authorized without such a change."

The OA-BP has adjusted the revenue limit for the transfer of deputy circuit clerks from the county payroll to the state payroll under Section 483.245, RSMo 2000, which was effective on July 1, 1981. In past years, the SAO disagreed with this adjustment because state funding of these salaries was required by statute instead of by consequence of constitutional amendment. In addition, the Judicial Article Amendment was effective on August 3, 1976, which was prior to the time the Hancock Amendment was adopted by the voters on November 4, 1980. However, the Supreme Court ruled in its decision on January 27, 1998, that an adjustment to the revenue limit for the transfer of deputy circuit clerks from the county payroll to the state payroll is appropriate.

# **Composition of Total State Revenues**

An integral part in applying the provisions of the amendment to state revenues is to determine what constitutes TSR. The amendment does not specify the methodology to be used to determine TSR. Consequently, procedures to calculate TSR have been established and certain decisions as to items that would be either included or excluded have been made, except for items ruled on by the Attorney General or the Missouri courts.

TSR includes all revenues recorded in the Statewide Accounting System for Missouri (SAM II) and receipted by the state treasurer, which may only be withdrawn pursuant to an appropriation or which stand appropriated by the Constitution of Missouri. Various funds not in the state treasury are not included in TSR. These funds include university local funds, local sales tax fund collections made by the Department of Revenue, various funds held in trust for inmates, patients, etc., and various quasi-governmental agencies such as the Board of Public Buildings, the Housing Development Commission, the Higher Education Loan Authority, the Health and Educational Facilities Authority, and the state's retirement systems. The Hancock Amendment states the composition of TSR is, "defined in the budget message of the governor for fiscal year 1980-81." The funds described above were not addressed in the governor's budget message for that year since the funds were not in the state treasury and were not appropriated. Thus, it seems reasonable to conclude that these funds should not be included in TSR.

From the revenue amounts obtained from SAM II, certain funds are entirely excluded to arrive at TSR, as defined in Article X, Section 17(1) of the constitution, as follows:

# A. Lottery

In November 1984, the voters approved Article III, Section 39(b) of the constitution, which authorized the creation of the Missouri State Lottery. This provision states that revenues produced from the conduct of a state lottery shall not be a part of TSR. Since the voters approved the state lottery, all revenue and expenditure refunds related to the state lottery are excluded.

#### **B.** Alternative Care Trust Fund

The Alternative Care Trust Fund was established in 1989 under Section 210.560, RSMo 2000. The Division of Family Services uses this fund to account for funds held in trust for the benefit of children who have been placed in the legal custody of the state. The Department of Corrections, Department of Mental Health, and the Division of Veteran's Affairs hold funds in trust for inmates and patients; however, these funds are not in the state treasury and are not included in TSR. Funds held in trust are not state funds since the funds remain the property of the individual. Since the Alternative Care Trust Fund does not account for state funds, it is excluded.

# C. State Guaranty Student Loan Funds

Federal legislation in August 1997 made changes in the accounting required for federal education loans. Starting in state fiscal year 1998, the federal government considers all monies in these funds as property of the federal government. As a result, the state excludes these funds held in trust for the federal government.

# D. Pansey Johnson-Travis Memorial State Gardens Trust Fund

The state received an endowment in 1987 for the purpose of establishing a memorial state garden. The state is to invest the endowment for 100 years before using the funds to establish the memorial garden. Since the funds cannot be appropriated until 2087, the revenue is excluded from TSR.

From the revenue amounts obtained from SAM II, certain types of revenues are excluded to arrive at TSR, as defined in Article X, Section 17(1) of the constitution, as follows:

# E. Federal Funds

Article X, Section 17 specifically excludes federal funds.

# F. Proposition C Sales and Use Tax\Interest

In November 1982, the voters approved Proposition C, which increased the state sales and use tax by 1 percent. Since Proposition C received direct voter approval as provided in Article X, Section 16, the proceeds from the additional 1 percent sales and use tax, including any interest earned on the investment of such taxes, are excluded.

# **G.** Proposition A Gas Tax and License Fee Increases

In April 1987, the voters approved Proposition A, which increased the motor fuel tax by four cents per gallon and increased the annual registration fee for certain motor vehicles, effective July 1, 1987. Since the increase in tax and fees received direct voter approval, these revenues are excluded.

#### H. Bond Sales

An attorney general opinion concluded that proceeds of the state's general obligation bonds were not to be included in TSR.

#### I. Refunds

Refunds received due to the overpayment of obligations by the state, as identified by certain revenue source codes, are excluded.

# J. Interagency Sales and Receipts

Since interagency transactions do not generate additional revenue for the state as a whole, interagency sales and receipts, as identified by certain revenue source codes, are excluded.

# K. Soil and Water Sales and Use Tax\Interest and

#### L. Parks Sales and Use Tax\Interest

In August 1984, the voters approved a one-tenth of 1 percent sales tax for soil and water conservation and state parks. Article IV, Section 47(c) states that the additional revenue provided by the tax shall not be part of TSR. Since the voters approved the sales tax, the sales tax and any interest earned on the investment of the balance in these funds are excluded.

# M. Redeposit of Investment Principal

The redeposit of investment principal is excluded.

#### N. Outlawed Checks

Outlawed checks, which are state checks that were not cashed by the payee within the time allowed, are redeposited in the state treasury and are excluded.

# O. Redeposit of Loan Principal

Redeposits of loan principal are excluded.

#### P. Amendment 8 Motor Fuel Tax to Local Governments

In August 1992, the voters approved an amendment to Article IV, Section 30(a) which revised the apportionment of the motor fuel tax. In addition, the amendment provided that

beginning July 1, 1993, the net proceeds of fuel taxes allocated to local governments is excluded from TSR. Since the voters approved this revised allocation of the fuel tax, the fuel tax allocated to local governments is excluded.

# Q. Bingo

The August 1992 amendment to Article III, Section 39(d) related to gaming activities also applies to bingo games, in that all state revenues derived from the conduct of gaming activities shall be appropriated beginning July 1, 1993, solely for public education and shall not be included in TSR. Section 313.007, RSMo 2000 requires the bingo tax to be deposited in the Bingo Proceeds for Education Fund. The bingo tax, certain fees, and the interest earned on the investment of the fund are excluded from TSR.

# R. Riverboat Gambling

In August 1992, the voters approved an amendment to Article III, Section 39(d) of the Missouri Constitution. This constitutional amendment requires that all state gaming revenues must be appropriated for public education and excludes these revenues from TSR.

In 1993, the Missouri General Assembly enacted Senate Bills 10 and 11. This comprehensive gaming legislation established riverboat gaming in the state. This law repealed House Bill 149 related to riverboat gaming which had been enacted by voters as Proposition A in November 1992.

Under Senate Bills 10 and 11, the legislature imposed a 20 percent tax on adjusted gross receipts from gambling games. The state treats 90 percent of this revenue as state gaming revenues under Article III, Section 39(d) and earmarks the revenues to the Gaming Proceeds for Education Fund. The remaining 10 percent of this revenue is allocated to the home dock city or county. Under Article III, Section 39(d) of the Missouri Constitution, the 90 percent portion of the adjusted gross receipts tax is exempted from TSR. The remaining 10 percent portion of the adjusted gross receipts tax is also excluded from TSR because these funds are distributed by the Department of Revenue without deposit in the state treasury and without appropriation.

Under Senate Bills 10 and 11, the legislature also established a Gaming Commission Fund in the state treasury and authorized gaming commission license fees, penalties, administrative fees, reimbursements, and admission fees to be deposited in this fund and expended pursuant to state appropriation for various purposes.

On November 24, 1998, the Missouri Court of Appeals, Western District entered its final decision in Kelly v. Hanson, et. al., 984 S.W. 2d 540 (Mo. 1998). The Missouri Court of Appeals, Western District ruled that revenue from the one dollar portion of the state imposed two dollar admission fee that is remitted to the "home dock city or county" is not included in TSR, while the revenue from the payments to the state to recoup public safety and regulatory enforcement costs is included in TSR.

# S. Redeposit of State Funds

The redeposit of state funds for which a state expenditure was originally incurred, such as from closing a petty cash fund and returning the funds to the state treasury, is excluded.

#### T. Loan Proceeds

The state receives loans or advancements from the federal government, local governments, or private sources, to finance the acceleration of state projects. Since the loans must be repaid in the future, they are excluded.

#### **U.** Conservation Sales and Use Tax/Interest

Pursuant to the Supreme Court decision in <u>Conservation Federation of Missouri, et. al., v. Richard Hanson, et. al.</u>, 994 S.W. 2d 27 (Mo. Banc. 1999), the revenue derived from the one-eight of one percent conservation sales tax, and any interest earned on the investment of these funds, are excluded.

# V. State Employee Expense Reimbursement

The state receives reimbursement from private individuals, firms, partnerships, corporations, etc. for state employee expenses incurred in providing testimony in a court of law, for which the employee has already been reimbursed by a state expense account. These reimbursements are excluded.

# W. Recovery Costs

Monies received from others for costs incurred by the state or to be incurred by the state are excluded.

#### X. Cost Reimbursements

Monies received from other governments for reimbursements of costs incurred by the state are excluded.

Regarding items W. and X., the state has excluded from TSR receipts for cost reimbursements since fiscal year 1982 and receipts for recovery costs since fiscal year 1988. Although the constitution does not specifically mention cost reimbursements and recovery costs and they have not been the subject of a court decision, we have agreed with such exclusions because from an accounting standpoint, they would not be considered revenue.

#### Y. Canceled Checks

Receipts derived from the redeposit of state checks that have been canceled are excluded.

#### Z. Local Match

Local governments provided funds to the state to use as a local match to qualify for federal or state funding. Since these local match funds are not state funds, they are excluded.

# AA. Proceeds of Surplus Property Sales

The proceeds from some sales of surplus property are initially deposited into the Proceeds of Surplus Property Sales Fund then they are disbursed from this fund to the state fund that owned the property. To avoid counting the same receipts in TSR twice, the state excludes amounts disbursed from the Proceeds of Surplus Property Sales Fund to other state funds.

# **BB.** Intergovernmental Transfer Program

Starting in fiscal year 2001, the state participated in the Medicaid intergovernmental transfer (IGT) program. Under the IGT program the state was able to receive additional federal Medicaid matching funds based on enhanced payments to some government operated health care providers. The state made the enhanced payments to the providers and, after the state claimed the federal matching funds, the providers returned the enhanced payments to the state. Because these funds were simply returned to the state, similar to a refund, they are excluded from TSR.

#### CC. WIC Rebates

The Department of Health and Senior Services (DHSS) issues checks for the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) to program participants who redeem the checks for formula at participating grocery stores. The WIC checks are processed through the Federal Reserve System and the WIC program is charged for the check presented. The DHSS records the redeemed WIC checks and sends a monthly invoice to Mead Johnson who then rebates the federal monies to the state.

#### **Cash Management Improvement Act**

The state has to enter into an agreement with the federal government which governs the timing of when the state can obtain federal grant monies. If the state holds federal funds longer than needed, the state has to reimburse the federal government for interest earnings. Since the interest was earned on federal funds and has to be returned to the federal government, it is excluded from TSR.

# **Abandoned Funds Claim Payments**

Under Section 447.543, RSMo 2000, the state receives abandoned funds from various sources (banks, businesses, insurance companies, etc.). These funds are placed in the state Abandoned Fund Account. The rightful owner may receive these funds if properly claimed. The state includes the receipts in TSR. Starting in fiscal year 1998, the state excludes from TSR amounts paid to the rightful owner.

# **Agency Remitted Sales Tax**

Some state agencies sell goods or services to the public and collect sales tax. To avoid counting the same receipts in TSR twice, the sales tax remitted by state agencies to the Department of Revenue is excluded from TSR.

# **Expenditure Refunds**

According to Article X, Section 17(1), total state revenue shall exclude the amount of any credits based on actual tax liabilities. Refunds disbursed due to the excess collection by the state of liabilities owed the state, largely tax refunds, as identified by certain expenditure object codes are excluded. The method used to determine expenditure refunds is not specified in the amendment. Although the OA-BP initially used the appropriation basis to determine expenditures refunds, during fiscal year 1984, the OA-BP changed to the cash basis. The SAO had consistently used the appropriation basis to measure refunds. As a result, a difference existed. However, in its decision of January 27, 1998, the Supreme Court indicated that a cash basis of accounting should be used to determine compliance with the Hancock Amendment. As a result, the SAO changed its calculation of expenditure refunds to the cash basis.

# **Tobacco Master Settlement Agreement Proceeds**

The OA-BP has excluded \$142,829,966 received from tobacco companies during fiscal year 2004. The Master Settlement Agreement was entered into effective November 23, 1998, between the major cigarette manufacturers and the states' Attorney Generals. Missouri received its first payments under the settlement agreement during fiscal year 2001, which totaled \$338,230,653 and future payments from tobacco companies extend in perpetuity. The payment received in 2001 included amounts under the settlement agreement for 1998, 2000, and 2001. The settlement agreement did not require a payment for 1999. Fiscal years 2002 and 2003 payments were \$172,679,543 and \$166,895,179, respectively. The amounts received were coded in the state's accounting system to revenue source code 1806 - recovery costs, which is excluded from TSR. Recovery costs are defined under revenue source code 1806 as, "all monies received from others for costs incurred or to be incurred by the state." The OA-BP believes these receipts should be excluded from TSR because the amounts represent a recovery of health care costs previously incurred or to be incurred by the state attributable to smoking.

Public information was not readily available to determine if the amounts recovered from the tobacco companies under the master settlement agreement were more or less than the health care costs incurred. In our audit for 2001, we reviewed three extensive research projects conducted by experts. We limited our analysis to Medicaid costs incurred in fiscal years 1998 through 2001. We did not consider Medicaid costs from past years prior to 1998. In addition, we did not consider other costs incurred by the state, such as employee health care costs attributable to smoking. These three research projects showed that Medicaid costs attributable to smoking were higher than the amount the state received from the tobacco companies under the settlement agreement. As a result, in our 2001 report we concluded it was proper for the OA-BP to exclude the amounts received from the tobacco companies as a recovery cost.

A study, "Tobacco Damages to the State of Missouri" by Glenn W. Harrison, was commissioned by the Missouri Attorney General's Office for use in a lawsuit against tobacco companies filed May 12, 1997. This lawsuit was dropped because Missouri joined a consortium of states in December 1998, in the Master Settlement Agreement with the tobacco companies. As a result, the Harrison study was not fully completed. However, the draft report provided an estimate of Medicaid costs attributable to smoking for 1970 through 2007 and an estimate of state employee health care

costs attributable to smoking for 1970 through 1997. This study estimates that state costs attributable to smoking were higher than the amount the state received.

# **Compliance with Article X, Section 18 (e)**

Article X, Section 18 (e) imposes an additional revenue limit, which states the general assembly shall not increase taxes or fees in any fiscal year without voter approval that in total produce new annual revenues greater than \$50 million adjusted annually by the percentage change in the personal income of Missouri for the second previous year, or one percent of total state revenues for the second fiscal year prior to the general assembly's action, whichever is less. For fiscal year 2004, the OA-BP calculated these limits at \$75.6 million for the Missouri Personal Income amount and \$74.9 million for the one percent of total state revenues amount.

For fiscal year 2004, the OA-BP has determined the net tax and fee increases passed by the legislature totaled \$240.6 million, which exceeds limits noted above. Of this amount \$236.3 million is related to House Bill 1268, Second Regular Session, 92nd General Assembly (HB 1268), which provides an employer assessment for the payment of principal, interest, and administrative expenses related to credit instruments or financial agreements issued to provide a method of providing funds for the payment of unemployment benefits, or maintaining an adequate fund balance in the unemployment compensation fund. OA-BP indicated no bonds were issued for this purpose. According to OA-BP, compliance with the limit imposed by Article X, Section 18 (e) is ultimately to be determined by gauging the actual new annual revenues that result from new taxes and fees. OA-BP concluded that absent such assessments, the amount of taxes and fees resulting from legislation enacted in fiscal year 2004 appears well below the Article X, Section 18 (e) limit. Article X, Section 18 (e)4. provides, "Compliance with the limit in this section shall be measured by calculating the aggregate actual new annual revenues produced in the first fiscal year that each individual tax or fee change is fully effective". As a result, it appears the state complied with Article X, Section 18 (e).

APPENDIX

# ARTICLE X, SECTIONS 16 THROUGH 24, CONSTITUTION OF MISSOURI (ADOPTED NOVEMBER 4, 1980, AMENDED APRIL 2, 1996\*)

#### **TAXATION**

Section 16. Taxes and state spending to be limited--state to support certain local activities-emergency spending and bond payments to be authorized. Property taxes and other local taxes and state taxation and spending may not be increased above the limitations specified herein without direct voter approval as provided by this constitution. The state is prohibited from requiring any new or expanded activities by counties and other political subdivisions without full state financing, or from shifting the tax burden to counties and other political subdivisions. A provision for emergency conditions is established and the repayment of voter approved bonded indebtedness is guaranteed. Implementation of this section is specified in sections 17 through 24, inclusive of this article.

# **Section 17. Definitions.** As used in sections 16 through 24 of Article X:

- (1) "Total state revenues" includes all general and special revenues, license and fees, excluding federal funds, as defined in the budget message of the governor for fiscal year 1980-1981. Total state revenues shall exclude the amount of any credits based on actual tax liabilities or the imputed tax components of rental payments, but shall include the amount of any credits not related to actual tax liabilities.
- (2) "Personal income of Missouri" is the total income received by persons in Missouri from all sources, as defined and officially reported by the United States Department of Commerce or its successor agency.
- (3) "General price level" means the Consumer Price Index for All Urban Consumers for the United States, or its successor publications, as defined and officially reported by the United States Department of Labor, or its successor agency.

# Section 18. Limitation on taxes which may be imposed by general assembly--exclusions-refund of excess revenue--adjustments authorized.

- (a). There is hereby established a limit on the total amount of taxes which may be imposed by the general assembly in any fiscal year on the taxpayers of this state. Effective with fiscal year 1981-1982, and for each fiscal year thereafter, the general assembly shall not impose taxes of any kind which, together with all other revenues of the state, federal funds excluded, exceed the revenue limit established in this section. The revenue limit shall be calculated for each fiscal year and shall be equal to the product of the ratio of total state revenues in fiscal year 1980-1981 divided by the personal income of Missouri in either the calendar year prior to the calendar year in which appropriations for the fiscal year for which the calculation is being made, or the average of personal income of Missouri in the previous three calendar years, whichever is greater.
- (b). For any fiscal year in the event that total state revenues exceed the revenue limit established in this section by one percent or more, the excess revenues shall be refunded pro rata based on the liability reported on the Missouri state income tax (or its successor tax or taxes) annual

returns filed following the close of such fiscal year. If the excess is less than one percent, this excess shall be transferred to the general revenue fund.

- (c). The revenue limitation established in this section shall not apply to taxes imposed for the payment of principal and interest on bonds, approved by the voters and authorized under the provisions of this constitution.
- (d). If responsibility for funding a program or programs is transferred from one level of government to another, as a consequence of constitutional amendment, the state revenue and spending limits may be adjusted to accommodate such change, provided that the total revenue authorized for collection by both state and local governments does not exceed that amount which would have been authorized without such change.
- (e).1. In addition to the revenue limit imposed by section 18 of this article, the general assembly in any fiscal year shall not increase taxes or fees without voter approval that in total produce new annual revenues greater than either fifty million dollars adjusted annually by the percentage change in the personal income of Missouri for the second previous fiscal year, or one percent of total state revenues for the second fiscal year prior to the general assembly's action, whichever is less. In the event that an individual or series of tax or fee increases exceed the ceiling established in this subsection, the taxes or fees shall be submitted by the general assembly to a public vote starting with the largest increase in the given year, and including all increases in descending order, until the aggregate of the remaining increases and decreases is less than the ceiling provided in this subsection.
- 2. The term "new annual revenues" means the net increase in annual revenues produced by the total of all tax or fee increases enacted by the general assembly in a fiscal year, less applicable refunds and less all contemporaneously occurring tax or fee reductions in that same fiscal year, and shall not include interest earnings on the proceeds of the tax or fee increase. For purposes of this calculation, "enacted by the general assembly" shall include any and all bills that are truly agreed to and finally passed within that fiscal year, except bills vetoed by the governor and not overridden by the general assembly. Each individual tax or fee increase shall be measured by the estimated new annual revenues collected during the first fiscal year that it is fully effective. The term "increase taxes or fees" means any law or laws passed by the general assembly after the effective date of this section that increase the rate of any existing tax or fee, impose a new tax or fee, or broaden the scope of a tax or fee to include additional class of property, activity, or income, but shall not include the extension of an existing tax or fee which was set to expire.
- 3. In the event of an emergency, the general assembly may increase taxes, licenses or fees for one year beyond the limit in this subsection under the same procedure specified in section 19 of this article.
- 4. Compliance with the limit in this section shall be measured by calculating the aggregate actual new annual revenues produced in the first fiscal year that each individual tax or fee change is fully effective.
- 5. Any taxpayer or statewide elected official may bring an action under the provisions of section 23 of this article to enforce compliance with the provisions of this section. The Missouri supreme court shall have original jurisdiction to hear any challenge brought by any statewide elected official to enforce this section. In such enforcement actions, the court shall invalidate the taxes and fees which should have received a public vote as defined in subsection 1 of this

section. The court shall order remedies of the amount of revenue collected in excess of the limit in this subsection as the court finds appropriate in order to allow such excess amounts to be refunded or to reduce taxes and/or fees in the future to offset the excess monies collected.

Section 19. Limits may be exceeded, when, how. The revenue limit of section 18 of this article may be exceeded only if all of the following conditions are met: (1) The governor requests the general assembly to declare an emergency; (2) the request is specific as to the nature of the emergency, the dollar amount of the emergency, and the method by which the emergency will be funded; and (3) the general assembly thereafter declares an emergency in accordance with the specifics of the governor's request by a majority vote for fiscal year 1981-1982, thereafter a two-thirds vote of the members elected to and serving in each house. The emergency must be declared in accordance with this section prior to incurring any of the expenses which constitute the emergency request. The revenue limit may be exceeded only during the fiscal year for which the emergency is declared. In no event shall any part of the amount representing a refund under section 18 of this article be the subject of an emergency request.

**Section 20.** Limitation on state expenses. No expenses of state government shall be incurred in any fiscal year which exceed the sum of the revenue limit established in sections 18 and 19 of this article plus federal funds and any surplus from a previous fiscal year.

Section 21. State support to local governments not to be reduced, additional activities and services not to be imposed without full state funding. The state is hereby prohibited from reducing the state financed proportion of the costs of any existing activity or service required of counties and other political subdivisions. A new activity or service or an increase in the level of any activity or service beyond that required by existing law shall not be required by the general assembly or any state agency of counties or other political subdivision, unless a state appropriation is made and disbursed to pay the county or other political subdivision for any increased costs.

# Section 22. Political subdivisions to receive voter approval for increases in taxes and fees-rollbacks may be required--limitation not applicable to taxes for bonds.

(a). Counties and other political subdivisions are hereby prohibited from levying any tax, license or fees, not authorized by law, charter of self-enforcing provisions of the constitution when this section is adopted or from increasing the current levy of an existing tax, license or fees, above that current levy authorized by law or charter when this section is adopted without the approval of the required majority of the qualified voters of that county or other political subdivision voting thereon. If the definition of the base of an existing tax, license or fees, is broadened, the maximum authorized current levy of taxation on the new base in each county or other political subdivision shall be reduced to yield the same estimated gross revenue as on the prior base. If the assessed valuation of property as finally equalized, excluding the value of new construction and improvements, increases by a larger percentage than the increase in the general price level from the previous year, the maximum authorized current levy applied thereto in each county or other political subdivision shall be reduced to yield the same gross revenue from existing property, adjusted for changes in the general price level, as could have been collected at the existing authorized levy on the prior assessed value.

(b). The limitations of this section shall not apply to taxes imposed for the payment of principal and interest on bonds or other evidence of indebtedness or for the payment of assessments on contract obligations in anticipation of which bonds are issued which were authorized prior to the effective date of this section.

Section 23. Taxpayers may bring actions for interpretations of limitations. Notwithstanding other provisions of this constitution or other law, any taxpayer of the state, county or other political subdivision shall have standing to bring suit in a circuit court of proper venue and additionally, when the state is involved, in the Missouri supreme court, to enforce the provisions of sections 16 through 22, inclusive, of this article and, if the suit is sustained, shall receive from the applicable unit of government his costs, including reasonable attorneys' fees incurred in maintaining such suit.

# Section 24. Voter approval requirements not exclusive--self-enforceability.

- (a). The provisions for voter approval contained in sections 16 through 23, inclusive, of this article do not abrogate and are in addition to other provisions of the constitution requiring voter approval to incur bonded indebtedness and to authorize certain taxes.
- (b). The provisions contained in sections 16 through 23, inclusive, of this article are self-enforcing; provided, however, that the general assembly may enact laws implementing such provisions which are not inconsistent with the purposes of said sections.
- \* The 1996 amendment added Section 18(e).
